

How to Make a Paper Bag Treasure Chest

1. Open up the paper bag so that it can stand up.
2. Cut down all 4 corners of the paper bag, leaving about 2.5" at the bottom (there is a crease in paper lunch bags at this spot to show where to stop).

3. Fold the 2 smaller edges into the bag and along the bottom as shown below.

4. Do the same with one of the larger sides of the bag.
5. Use the last side to make the top of the treasure box as shown below.

6. Add handles and a lock.
